Ms. Anton,

Thank you for your call.

Based on what I know right now from our conversation, I can do the mineral appraisal for \$8,000 for one report. If your sister needs her own separate report, that is assumed to be essentially the same with only name changes, that is an additional \$1,000. We take half payment up front and the second payment is made upon delivery of the draft report.

We are going to look at the past production from the one well you told me about. We will also have to create a type well for modelling the potential production from the additional five wells you mentioned that have been staked.

Timing of these reports always change based on workload, but as of right now, I think it is reasonable to expect the report completion by the end of January.

We will need deeds, leases, and revenue statements from the last 24 months. Please work on obtaining those.

Regards,

Rob

RE: Rural Water Hookup - Twp. 140 Rge. 97, Sec. 24 NE

Dear Sharon:

Congratulations, as you can now join other North Dakotans who enjoy quality water year round. Enclosed find information for your connection to Southwest Water Authority's (SWA) quality water pipeline. *Please return signed document(s) & payment by January 19, 2024.*

STEP 1: Sign Water Customer Information and Agreement Form & Initial Acknowledgement of Your First Water Bill. (*Billing will begin as soon as the Hydraulic Study is completed.*)

STEP 2: Submit Standard hookup fee of \$3,803.00 (*Check or Money Order Payable to SWA*)

STEP 3: Mark Your Connection Location on the Enclosed Map (*Please return marked map with signed agreement*)

Once you return all of the above documentation, SWA will conduct a hydraulic study to determine the water pressure for your installation and current customers affected in your area. SWA will call you with the results when the hydraulic study is complete. Service is dependent on the results of the study. Only 3 STEPS are left:

STEP 4: Hire a Licensed Plumber and Sewer/Water Installer

STEP 5: Return Subsequent User Installer Approval Form (*Must be returned to SWA so materials can be set out*)

STEP 6: Your Installer Completes Verification of Rural Water Service Connection Form (completed form will be picked up by a SWA employee when your water is turned on and Automatic Meter Reader is installed. Amount Due for AMR will be included on the next billing cycle after installation. Amount not to exceed \$647.00)

If you will require a connection "wet tap" to our main water pipeline, please notify our office at least two days in advance. Once your install is completed, you will need to allow for a 72 hour notice for your water service to be turned on.

Important to Know: For health, safety, and legal reasons, **ONLY** an authorized SWA representative can turn on your water. *It is your responsibility to acquire all easements, permits, installation costs, or any other incidental expenses needed to complete or maintain your home's service line connection to the water pipeline. All service lines exceeding 500 L.F. require a bacteriological test. Please take a few minutes to review the enclosed informational documents: Late and Subsequent Applicant Requirements, Frequently Asked Questions (FAQs), SWA's Rules and Regulations, and the Water Rates.*

It is also important to know that we are here to serve you. So if you have questions, please contact our office. That's because we look forward to connecting your life to Southwest Water Authority's quality water!

Thank you,

Valerie Wiedrich

Ms. Anton,

Thank you for your call.

Based on what I know right now from our conversation, I can do the mineral appraisal for \$8,000 for one report. If your sister needs her own separate report, that is assumed to be essentially the same with only name changes, that is an additional \$1,000. We take half payment up front and the second payment is made upon delivery of the draft report.

We are going to look at the past production from the one well you told me about. We will also have to create a type well for modelling the potential production from the additional five wells you mentioned that have been staked.

Timing of these reports always change based on workload, but as of right now, I think it is reasonable to expect the report completion by the end of January.

We will need deeds, leases, and revenue statements from the last 24 months. Please work on obtaining those.

Regards,

Rob
